

OVERVIEW

1. What problem does this module solve?

i All Schools are required to manage the holistic view of any student's health and medication. The Health module handles medication administration, sick bay, ambulance reports and student health in general. It provides an efficient, effective and clear end to end solution that seamlessly manages key processes and workflows for managing student health and medication. The module is simple and fast to configure to your specific school's processes and requirements, but comprehensive enough to handle complex grouping, communication and workflows.

2. How does Sentral solve this?

i **The Sentral Health Module:**

The ease of configuring this module ensures that schools can start administering and managing medication for students. Students with health concerns can be tracked and monitored. Sending a message to parents for Sick Bay is simple and tracks student attendance.

Simple Easy Tab Navigation

- Gives a dashboard overview and allows a search or filter action.
- Comprehensive information about any student with Care Plans due to Health issues.
- All common data fields come out of the box, allowing schools to easily manage sick bay incidents. The system is integrated with Attendance and messaging. Details can be quickly and easily updated for an individual student.
- Has seamless integration to the Enrolments & Profiles module once a record is activated.
- Logical search and filtering functionality with options to monitor student medications.
- Easy tracking of students with regular medications and the ability to register adhoc medications.

3. Who will use and get value from this Module?

i The Health module will be used by administrative, nurses and/or office staff who handle student health, sick bay and medication. General staff have access however may be required to follow school processes and polices. A deep understanding of current school policies and procedures is essential to ensure Health & medication is centralised & transparent. The Health module also benefits the parent and community at large to provide time-efficient and easy school interactions.

|| **SENTRAL HEALTH**

The Health module will also be used by your Enrolments staff to manage admissions process, communications and the parent engagement during the student's school journey.
