

# || **SENTRAL HOUSES POINTS**

## **OVERVIEW**

### **1. What problem does this module solve?**

**i** Schools may like to manage the holistic view of any student reward and awards management. The House Points module handles the automatic and manual administration of general points and merits earned via positive incidents and activity participation. It provides an efficient, effective solution that seamlessly manages key processes and workflows for managing student points, merits and rewards. The module is simple and fast to configure to your specific school's processes and requirements, but comprehensive enough to handle automation and workflows.

### **2. How does Sentral solve this?**

**i** **The Sentral House Points Module:**

The ease of configuring this module ensures that schools can start administering and managing awards and point. Students & Houses that earn points can be tracked and monitored. The module dashboard can be shared with the student body during assemblies.

Simple & easy tab navigation

- Gives a dashboard overview and allows a search or filter action.
- Comprehensive information about Houses earning points.
- The system is integrated with Wellbeing and Activities. Details can be quickly and easily updated for an individual student or house.
- An overview of points earned for each house provides an overview on top scorers
- Integration with government data sources to sync students and houses into Sentral
- Easy tracking of students within houses.

### **3. Who will use and get value from this Module?**

**i** The House Points module will be used by administrative and teaching staff who handle student awards and points. General staff have access however may be required to follow school processes and polices. A deep understanding of current school policies and procedures is essential to ensure awards and merits are centralised & transparent. House Points module also benefits the student community at large to provide information on houses statuses.
