

OVERVIEW

1. What problem does this module solve?

i All schools are required to keep a record of attendance for all students. The Kiosk module does this by handling all absence types and records via a device. It provides an efficient, effective, and clear end to end solution that seamlessly manages key processes and workflows and reporting functionality for attendance records. The module is simple and fast to configure to your specific school's processes and requirements, but comprehensive enough to handle Attendance processes and workflows.

2. How does the Sentral Kiosk Module solve this?

- i** The ease of configuring this module ensures that the schools can start Attendance roll marking via a device. Adding a new absence can be as basic or as detailed as you like to capture the data within Attendance module.
- Simple & easy tab navigation
 - Student Kiosk provides simple to use self-serve sign in solutions for students to sign in and out of school.
 - Kiosk management enables authorisation and control over student directed absences.
 - All common Absence Reasons come out of the box for each state, allowing schools to easily record student information as well as documents related to attendance. Details can be quickly and easily updated for an individual student.
 - Has seamless integration to the Messaging, Attendance & PXP module once rolls are setup and official attendance period is defined.
 - Ability to setup Kiosks & link slip printing for tracking of student's attendance records.
 - Depending on school requirements, the system can be configured to use existing Student ID Cards, bar code and/or Biometric Fingerprint technology.
 - Integration with Timetables enables flexible student management.
 - Ability to setup printing for departures and late arrivals.

3. Who will use and get value from this Module?

i The Kiosk module will be used by administrative, teachers and/or office staff who handle student's day to day attendance, reporting, notifications & record keeping. A deep

understanding of current school policies and procedures is essential to ensure data is consistently captured, centralized, transparent for all staff. Kiosk also benefits the parent and community at large to provide time efficient and easy school interactions and exportation of data to government systems.

The Kiosk module integrates with many modules and helps to address student attendance concerns which may result in managing student behaviours' that impact on learning.
