

# SENTRAL TIMETABLES

Customer Segment	All Schools
------------------	-------------

## OVERVIEW

### 1. What problem does this module solve?

**i** Most High schools are required to implement a timetable package to handle academic class and period by period learning. The Timetable module enables seamless integration with third party\* timetable software to populate PXP classes. The module is simple and fast to configure to your specific school's processes and requirements, but comprehensive enough to handle and view flexible timetabling & daily variations.

### 2. How does Sentral solve this?

**i** **The Sentral Class Timetables Module:**

The ease of configuring this module ensures that the schools can start using Timetables immediately to also populate and setup PXP class attendance.

Simple & easy tab navigation

- Offers teacher, class and student search functionality that gives fast access to basic timetable information and the ability to locate students
- Create a variety of rosters, schedules and basic timetables.
- Time saving and paperless web-based solution that all staff can access to manage staff and student movement
- Ability to publish to student and parent portal and keep timetable data up to date.
- Ability to plan and print timetable information
- Has integration with Academic Reports, PXP and Attendance Wellbeing module.

### 3. Who will use and get value from this Module?

**i** The Timetable module will be used by faculty staff, teachers and/or office staff who handle student's day to day period structures & record keeping. A deep understanding of current school policies and procedures is essential to ensure data is consistently captured, centralized, transparent for all staff. Timetables also benefits the parent and student community at large to provide time efficient and up to date information about student timetables.

The Timetable module integrates with many modules and helps to address student movement, period by period management and attendance
