Service Release Notes

Version	23.6.1-MT
Release date	17/8/2023

- **Internal configuration change – no customer impact**

Version	23.6.2-MT
Release date	17/8/2023

- **Internal configuration change – no customer impact**

Version	23.6.3-MT
Release date	21/8/2023

Core Platform

Issues resolved

- **On the school selector screen, when school groups were configured, only the first group heading was showing**

Attendance

Issues resolved

- **The Official Record of Attendance would not generate a full year's worth of data when the 'Year Of' option was selected for a date range**

Enrolments

Issues resolved

- **Contacts: The student's 'Self' relationship record was incorrectly pushed up in priority when it should be at the bottom priority list**

  The Self relationship record is always last in the order of priority. An option has been added in Messaging setup to determine whether the student themselves can be contactable.

- **Drafts: When completing a draft enrolment, attempting to open a medical document would result in a Sentral exception error**
- **Export: Incorrect student year level was displaying in the WA Census export**
- **Export: Visa sub class information was missing from the WA Census export**
- **Export: Export: An incorrect column heading that didn't match specifications was displaying in the WA Census export**

  The column heading has been updated to 'Repeating' instead of 'Repeating Current Year' as per specifications.

- **Export: Incorrect census years were displaying on the Student Registration & Demographics (SRGDG) export**

Issue Tracking

Issues resolved

- **Print: An error would sometimes occur when attempting to print a Work, Health and Safety (WHS) task**

Plans

Issues resolved

- **Plans: Health care plans would not print details that used Table Style**

Portal

Issues resolved

- **Permission slips: Event details would strip all returns (line breaks) in the Parent Portal**

Report Writer

Issues resolved

- **Adhoc report: Incorrect Mobile Phone column names were displayed for certain family entries**
- **Adhoc report: Attempting to use Alumni as the base entity when generating this report would result in an error**

Timetables

Issues resolved

- **Duplicate study periods were showing on daily student view**
