Service Release Notes

Version	23.7.1-MT
Release date	27/9/2023

Attendance

- **An error would display when loading the Student Attendance screen for PHP versions below 5.5**

  Attendance | Search for a student | Student Attendance screen

Version	23.7.2-MT
Release date	29/9/2023

- **Internal configuration changes – no customer impact**

Version	23.7.3-MT
Release date	3/10/2023

Academic Reports

Issues resolved

- **Achievement Breakdown component: Descriptive text next to the Scale Display setting caused some users who wanted to apply rotation to headings to incorrectly select 'Achievement' instead of 'All Marks'**

  Academic Reports | Setup | Layout | Report Templates | Design | Component Details

Admin Enquiry

Issues resolved

- **Reports: Roll Class/Class Statistics reports did not show any results**

  Admin Enquiry | Reports | Roll Class Statistics

Attendance PxP

Issues resolved

- **Selecting the Next arrow ⟩ at the top of the Class Period screen would navigate through open classes first instead of chronological order**

  Attendance PxP | [Period] | Next arrow ⟩

Dashboard

Issues resolved

- **The dashboard would fail to load when a calendar was deleted from the system, resulting in a Sentral exception error**

Enrolments

Issues resolved

- **A Sentral exception message would display on the Expired Case Files screen if a linked contact was inactive**

  Current Enrolments | Case Management | Expired Case Files

Fees and Billing

Issues resolved

- **Online Payments: Fee/Invoice was still visible in the Parent Portal after an activity's Payment Due Date had passed**

Health

Issues resolved

Delete button text used a different font to the rest of the screen

Health | Reports | Saved Reports | Your Reports | Delete button

Interviews

Issues resolved

- **Notify Parents: Non-primary contacts were receiving notification of interviews**

Portal

Improvements

- **My Details: Updated system logic to hide the Update Password button from users who authenticate using an external authentication method**

Portal Console

Issues resolved

- **Settings: Added a setting to allow for all Emergency Contacts to be hidden for Portal users when using Contact Keys**

Push Notification Service

Issues resolved

- **The system failed to send push notifications, resulting in an incorrect notification status 'N/A'**

  Portal Console | Manage feed | Push Notification column

Version   23.7.4-MT

Release date   3/10/2023 (scheduled)

API

- **Internal migration issue resolved**
