Service Release Notes

Version	23.7.4-MT
Release date	3/10/2023

API

- **Internal migration issue resolved**

Version	23.7.5-MT
Release date	10/10/2023

Academic Reports

Issues resolved

- **Users were unable to add new comments to their Comment bank**
  Academic Report Setup | Manage Comments | Add New Comment button selected

Attendance

Issues resolved

- **An error would display when users were marking attendance in the mobile view screen for PXP classes**

Portal

Issues resolved

- **NSW DoE Student SSO login was failing for some schools**
- **An error message would display for SSO Portal users when they logged out from the Portal**

Version	23.7.6-MT
Release date	11/10/2023

- **Xero sync: Payments deleted in Xero were failing to be removed from Sentral**
  Selecting Actions | Update Payments from Xero in the Payments Register, or Actions | Update Invoices from Xero in the Invoice Register did not update the invoice status and the Payment Status in Sentral

Version	23.7.7-MT
Release date	12/10/2023

Attendance

Issues resolved

- **Attendance screen: Users at some schools were unable to select the whole weeks, resulting in the need to select each day**

Meetings

Issues resolved

- **Groups synced from external sources: Groups dropdown contained additional options that were not relevant for meeting attendees**

Messaging

Issues resolved

- **PXP automatic absences were failing to dispatch**

Staff Absences

Issues resolved

- **Users at some schools were unable to use the clock-in clock-out feature on the Dashboard**

Version	23.7.8-MT
Release date	13/10/2023

Attendance

- **An error message would display when loading the Unmarked Attendances screen for the current day**

  Attendance | Administration | Attendance

Messaging

- **SMS balance was only updating once every two hours for some schools**

Version	23.7.9-MT
Release date	16/10/2023

Core Platform

Issues resolved

- **Incomplete school address was displayed in the footer of the Access Key email sent via Parent Portal**
- **Mark Distribution component: The component was incorrectly generating both dots on the distribution graph as the same colour**

Academic Reports

Issues resolved

- **Academic Reports: An error message would display when users attempted to print reports containing the Signatures component**

API

Issues resolved

- **'jobTitle' attribute was missing from the staff endpoint**

Attendance

Issues resolved

- **For schools migrated from ST to MT, an error message displayed when parents tried to access the Portal for the first time using the link in the Welcome email sent by their school**

Attendance PxP

Issues resolved

- **WebPxP: Double period roll marking was not working for composite classes**

Curriculum reference

Issues resolved

- **Incorrect ACARA version number and last updated date were displaying in the footer of Curriculum Reference screens**

Fees and Billing

Improvements

- **End of Day Summary report: Formatting has been updated to improve the report display when there are a large number of tills/users**

  Applies to NSW Department of Education (DoE) schools only.

Issues resolved

- **Dynamics sync: Syncing issues affected receipting to multiple invoices**

  When a payment was allocated to multiple invoices in Dynamics, the automatic webhook sync was only updating one of those invoices in Sentral. It now updates all invoices to which the payment was allocated.

- **Payments: Payment methods with Display in Sentral set to No under Receipting Settings were available for selection on the Invoice + Receipt and Receive Payment screens**

  This issue only affected schools that integrate with Xero and Dynamics. It did not affect NSW DoE schools.

- **Xero sync: The Remaining Credit for Credit Notes was not updating correctly in Sentral after a refund was reversed in Xero**

  Debtor Overview | Credit Notes for [debtor] | Remaining Credit column

Markbook

Issues resolved

- **Calculations linked to outcomes did not display the associated outcomes**

  Markbook | Faculty Markbook | [selected Markbook] | Edit button selected

Portal Console

Issues resolved

- **The link to Access Keys from the Setup Instructions screen was incorrect for schools using contact keys**

  Setup Portal Console | General | Instructions

Wellbeing

Issues resolved

- **Resetting student levels to a future date was not being respected, with the reset instead taking effect immediately**

  Wellbeing | Setup | Levels | Effective as of | Reset button
