

# Service Release Notes

**Version** 24.3.0-p1  
**Release date** 15/5/2024

## Core Platform

### Issues resolved

- **SA SSO: First names did not come across from SA SSO proxy after staff logged into Sentral**  
This issue affected South Australian department schools.
- **Some students were unable to log into the Portal**

**Version** 24.3.0-p2  
**Release date** 16/5/2024

## Core Platform

### Improvements

- **Data sync [NSW DoE]: Modified SAIS integration to support staff phone number management following NSW DoE's decision to no longer provide Sentral with data relating to staff phone numbers**

The points below describe how this change affects NSW DoE schools.

Staff phone number data will no longer sync up to SAIS, nor will staff phone number data be pulled down from SAIS to Sentral systems.

Setup | Administration Data | Staff – Staff phone number fields in Sentral will now be editable no matter if the staff is a DoE or non-DoE staff member.

#### **Sentral is chosen as the master**

- For DoE staff:
  - Removed ability to sync down the staff member's phone number from SAIS.
  - Added the ability to update the staff member's phone number in Sentral.
  - Retained current workflow where the staff member's phone number does not sync to SAIS.
- For non-DoE staff:
  - Removed ability to sync down the staff member's phone number from SAIS.
  - Retained current ability to edit the staff member's phone number in Sentral.
  - Removed ability to sync up the staff member's phone number to SAIS.

#### **Sentral is chosen as non-master**

- For DoE staff:
  - Removed ability to sync down the staff member's phone number from SAIS.
  - Added the ability to update the staff member's phone number in Sentral.
  - Retained current workflow where the staff member's phone number does not sync to SAIS.
- For non-DoE staff:
  - Removed ability to sync down the staff member's phone number from SAIS.
  - Retained current ability to edit the staff member's phone number in Sentral.
  - Removed ability to sync up the staff member's phone number to SAIS.

### Issues resolved

- **Data Sync: SAIS data sync produced an error for certain syncs due to changes on NSW DoE SAIS integration API**

**Version** 24.3.1  
**Release date** 20/5/2024

## Academic Reports

### Issues resolved

- **Reports: Secondary scale was being saved if users saved a schema with the 'Assess by' setting set to 'Subject only'**

## Admin Enquiry

### Issues resolved

- **Household search by street name was returning incorrect results**

## Analysis

### Issues resolved

- **PAT-M results were unable to be uploaded due to a format issue**

## Attendance

### Issues resolved

- **School Attendance Setup Settings: 'Automatic Declared to Unjustified' selection was not being respected when saving**

## Attendance PxP

### Issues resolved

- **The attendance roll for the second period of a double lesson for a composite class was not being marked correctly**
- **Class PxP: Cancelled composite classes were not displaying correctly**
- **Disabled classes were incorrectly displayed as unmarked on PxP teacher timetables and on teacher dashboards**
- **Meetings on PxP timetables were displaying the unmarked red border when they were not able to be marked**

## Fees and Billing

### Improvements

- **Activities [NSW DoE]: Added the ability to unpublish an activity with online payments after cancelling the activity's fees**

## Health

### Issues resolved

- **Reports: Certain reports in Health that displayed student or student related results would show data for students that were already inactive**  
The following reports now include an 'Includes Inactive' students filter that defaults to a 'No' selection.
  - Sickbay report
  - Medication | Scheduled Student Medication report
  - Medication | Administered Medication report
  - Ambulance report
  - Medical Certificate report
  - Medical Conditions
- **Sickbay: An error occurred when users attempted to create a sickbay entry for certain students**

## Markbook

### Issues resolved

- **The Canvas sync was failing to write to Markbook columns when an unknown student was encountered**

## Plans

### Issues resolved

- **Student IEP plans were incorrectly printing historical medical data in the Medical Conditions section**

## Portal

### Issues resolved

- **Student Portal Feed section would get stuck at the loading screen**

## Portal Console

### Issues resolved

- **User details was not updating in the Parent Portal because of a missing title field value**

## Central Pay

### Issues resolved

- **Parent Portal: Non-student contacts were sometimes unable to pay online after clicking the payment link in a payment request email**  
A spinning circle appeared over the screen and prevented the user from interacting with the screen.

## Student Profiles

### Issues resolved

- **Contact details were unavailable for inactive students**

## Timetables

### Issues resolved

- **When searching by faculty, classes that did not belong to the searched faculty displayed**

## Wellbeing

### Issues resolved

- **The word 'Executives' in the Signature component was spelt incorrectly**  
Wellbeing | Wellbeing Setup | Manage Letters | Signature component
