Service Release Notes

Version   24.4.1-p1
Release date   2/7/2024

Activities

Issues resolved

- **Some activities produced a whoops error when accessed**

Dashboard

Issues resolved

- **Widget: The What's Happening Today widget in certain circumstances involving birthdays would show the previous day's events**

Issue Tracking

Improvements

- **Home page: The Issue Tracking home page has been updated with various changes to improve usability and visibility of tasks relating to the logged in user**

  The following changes have been made on the Issue Tracking home page viewed when a user accesses the module.

  — My Open Tasks section has been moved to the top of the page. It appears before the My Assigned Tasks section. This ensures the user can see any of their open tasks first.

  — My Open Tasks section correctly displays the open tasks reported by the logged in user.

  — My Assigned Tasks section displays the open tasks assigned to the logged in user.

  — Closed tasks will no longer be displayed in My Open Tasks or My Assigned Tasks sections.

  — Added a check to ensure re-opening tasks which have been closed, will result in them being added to the list of tasks on the home page.

  — Updated tasks default sorting to sort in the following order:

  — past deadline - DESC order

    — priority - DESC order

    — deadline - ASC order

    — last activity - DESC order

  — Added the ability to sort tasks in the My Open Tasks and My Assigned Tasks section by Last Activity (ASC/DESC) and Deadline (ASC/DESC).

  — Added a limit check to provide pagination should there be too many tasks to load on the home page.

Issues resolved

- **Phone Numbers: The Phone Number field available under the Injured Person section incorrectly displayed a '>' character as part of the phone number**

Version	24.4.2
Release date	15/7/2024

Academic Reports

Issues resolved

- **Data was misaligned causing the Grade Distribution chart to appear blank**
- **The Student Grade Distribution Export button was not working consistently**
- **Progression Point Component: The component was unable to print when using the secondary assessable setting on a primary school reporting period**
- **Emails: The "students with no contacts with the receives report" flag count was displaying incorrectly**
- **The Checklist Group names were misaligned with Checklist Items**
- **Empty spaces and blank pages were appearing on printed reports when using the "Selected Class Only" print option**
- **Some indicators for certain subjects were not being imported into the reporting period from the curriculum repository**
- **Attribute checklist component: This component was adding padding below the header bar**
- **Secondary assessment overall mark was showing in the achievement breakdown despite being turned off**
- **Achievement Breakdown component: This component was showing a blank preview when the first schema in a report only reported at the subject level**
- **Achievement Breakdown component: Checklist mark style was not respected when using "Tick type" based on image instead of font**
- **The GPA calculation was incorrect when 'average grades from zero' was selected**
- **The Cohort filter was not working in reports generation area for publishing**
- **Some comments were truncated when printing reports**
- **The Attendance Percentages merge field on reports was incorrectly showing 0%**
- **When emailing reports, emails failed to send to some recipients**
  The ability to resend individual emails from the email history page has been added and a clear error message is displayed when an email fails

Activities

Issues resolved

- **Whoops error was visible to some schools when trying to edit an activity**
- **Permission Given flag appeared automatically when payment was receipted by school staff in the Finance/Fees & Billing module**

  If payment for a linked fee/invoice was receipted by school staff in the Finance/Fees & Billing module (e.g. when a parent paid with cash), the Permission Given flag automatically appeared for the student, and parents could not grant permission or answer questions through the Parent Portal.

- **Rolls: When the Medical Alert print option was ticked for printing an activity roll, the roll PDF sometimes generated with no data**
- **Some schools were experiencing an error when exporting results from some activities**

Attendance

Issues resolved

- **Some menu items were not visible in Kiosk**
- **Creating partial absences was taking a long time to complete**
- **The Percentage Attendance csv exports were displaying blanks instead of 0**
- **Student History Report was not showing comments when selected**

Enrolments

Issues resolved

- **Students: An incorrect count for the number of students was shown on the Manage Students screen in rare situations where a student was counted twice**

Fees and Billing

Issues resolved

- **Billing Run: Invoice status was set to PAID when a discount amount exceeded the amount of the related fee**

Integrations

Issues resolved

- **Advancedlife integration was failing for some schools when trying to set the integration id**

Interviews

Issues resolved

- **Interpreter information was not visible in some activities**

Issue Tracking

Issues resolved

- **Printing: An error occurred when generating a PDF that listed the tasks for a particular task type i.e. WHS**

Markbook

Issues resolved

- **Duplicate marks and grades were being saved in a markbook which resulted in the mark appearing not to update.**
- **Minimum and maximum calculations were using the wrong weight when using grade conversion**
- **Rubrics were not printing in full when the contents flowed on to a new screen**

Plans

Issues resolved

- **Contact 1 and 2 relationships were appearing incorrectly when added to a plan**

Portal

Issues resolved

- **Updated the behavior around downloading attachments for newsletters to be consistent** Parent Portal | Newsletters | Attachments

Portal Console

Issues resolved

- **Parents could not enter absence justification notes once absences were marked as unjustified**
- **Some parents were unable to view portal messages in the APP**

Wellbeing

Issues resolved

- **NSW DoE: Data sync was failing due to an error that occurred with a SAIS wellbeing response**
- **Impossible award nominations were showing when "Limit recent history to this year only" was set to Yes**
