Service Release Notes

Version 25.0.0-p1
Release date 23/1/2025

Integrations

Improvements

- **LifeskillsGo is now available as a default integration**

Interviews

Issues resolved

- **Teachers were unable to update interview classes from Manage Classes section**

Messaging

Issues resolved

- **Contacts: In certain scenarios, the contact type for a student record could change incorrectly to parent after a data sync**

Version 25.0.0-p2
Release date 28/1/2025

Portal Console

Issues resolved

- **The same parent portal key was sent out to both parent accounts**

Timetables

Issues resolved

- **Timetabler v10 Course codes were not unique when shared for different Duties and Meetings**

  When duty and meeting codes are not unique across different subject names, the subject name will be used on timetables to ensure uniqueness.

Version 25.0.0-p3
Release date 29/1/2025

Core Platform

Issues resolved

- **Core: Sentral incorrectly pushed 'No Roll Class' to SAIS**

Core\Authentication

Issues resolved

- **Login: Certain local users were not able to create their new password after a password reset was completed for their user account**

Admin Enquiry

Issues resolved

- **Exports: The dropdown arrow was not displayed on certain dropdown lists**

Enterprise Setup

Improvements

- **Future Students: Updated the Future Students setting with a new config for NSW DoE schools which allows control over how many days in advance future students can be imported into Sentral**

  In Enterprise Setup | General | Future Students, there are now two configurations available. The first configuration will import all future students for the current year and next year. The second configuration will allow the import of future students based upon a certain amount of days in advance. The amount of days is configurable but the default is 30 days.

Version 25.0.0-p4
Release date 30/1/2025

Academic Reports

New features

- **NSW Department Approved Stage 5 elective courses have been added to Curriculum Reference**

  The following courses have been added to the NSW Department Approved Elective Courses 9-10 repository: Animal Studies, Big History, Critical Thinking, Design and Media Studies, International Studies, iSTEM, Performing Arts, Philosophy, Psychology and Outdoor Education

Attendance

Improvements

- **Certain absence types are now excluded from contributing to the day counts for half day percentage calculations as shown in the absence reason screen**

Curriculum Reference

New features

- **The Health and Movement Science Life Skills subject has been added to the NSW AC Digital Curriculum Life Skills 11-12 repository**

Improvements

- **An update to the elaborations for English Stage 2 has been made in the NSW AC Digital Curriculum K-6 repository**

Version 25.0.0-p5
Release date 31/1/2025

Attendance

Issues resolved

- **Wonde: Alternate staff assignments were not linked to roll classes**

Sentra\Integrations\Xero

Improvements

- **Xero sync: Modified sync logic to prevent retrieval of credit notes from Xero if they are allocated to invoices that don't exist in Sentral**

Timetables

Issues resolved

- **A timetable sync was not updating class names**

  Classes are now linked correctly to course/subjects for both Tes Timetable and Timetabling Solutions v10:

Wellbeing

Issues resolved

- **Access: Users were unable to access the Plans page for a student when switching to a different school the student was enrolled in**

  This issue only affected schools using the Cross School Profiles feature.

Version	25.0.0-p6
Release date	3/3/2025

Messaging

Issues resolved

- **Scheduled messages incorrectly included inactive students when the message contained a student-based merge field and the filters of 'Roll Class' and 'Preferred Contacts' were used**

Sentral Setup

Issues resolved

- **Roll Classes: The year group filter available when managing student allocations for a roll class failed to display year groups for certain date years selected**

Version	25.0.0-p7
Release date	5/2/2025

Core Platform

Improvements

- **SAIS: Use the new StartedAtSchoolDate attribute to handle scenarios where students leave and come back in the same year**

Sentral Setup

Issues resolved

- **Roll Classes: For certain roll classes, future students did not show up when they were available and inactive students showed up when they should not have**

  This only affected NSW DoE schools who chose Sentral as GRS master.

Version	25.0.0-p8
Release date	6/2/2025

Asset Manager

Issues resolved

- **Export Data: Export incorrectly found no results when certain combinations of fields and filters were selected**

  Reports and Exports | Build Reports

Core\Data Sync

Issues resolved

- **Data Sync: A performance issue occurred with the Enrolments data sync which resulted in certain contacts / students failing to get updated throughout the system**

Sentral Pay

Improvements

- **Added the ability to prevent parents from attempting online payments during scheduled maintenance of the Ezidebit payment gateway**

  This change applies only to independent, ACT government and Victorian government schools using Sentral Pay with Ezidebit as the payment gateway.

  The system will automatically prevent parents from attempting online payments during maintenance periods. No action is required from schools.

Regression

- **Import from CASES21: Some payment requests were not imported successfully**

  This issue affected Victorian government schools only.

Version	25.0.1
Release date	10/2/2025

Core Platform

Improvement

- **Added the ability to set ACT term dates, public holidays and calendars for future years**
  This change applies to ACT government schools only.
  ACT term dates were set from 2026 to 2030
  ACT public holidays were set from 2026 to 2027
  ACT calendars were set from 2026 to 2030

Academic Reports

Issues resolved

- **A memory exhausted error occurred when attempting to add multiple subjects via a curriculum repository**

Activities

Issues resolved

- **Parents were not able to view information only activities from newsfeeds**

Admissions

Issues resolved

- **Contact Relationships: When linking a student in admissions to an existing household with existing students in it, the relationship record between the students was not properly created**

Attendance

Issues resolved

- **Part-time students were included in the daily roll tallies when they were not present on that day**
- **Flag filter on the Percentage Attendance report, when using the setting Student Percent Calculation, was resulting in 0 entries**
- **An error occurred when printing roll marking sheets if the selected day was a non teaching day for some, but not all year levels**
- **Disabled roll classes were still searchable and markable in Attendance.**
  When a roll class is disabled in Attendance Setup | Settings | Disabled Roll Classes, it will remain searchable in School Attendance but the roll cannot be submitted.
- **The Partial Absence table was not sorting alphabetically**

Attendance PxP

Issues resolved

- **The setting called 'Show Student House on Roll' was not working**
  PxP Setup | Settings
- **The button to switch to School Attendance when viewing a student page has been renamed from 'Jump to WebAttend' to 'Jump to School Attendance'**

Core\Data Sync

Issues resolved

- **Sentral data sync was creating departure records for the start date of a student**

Curriculum Reference

Issues resolved

- **The sample unit links for NSW subjects were outdated**

Enrolments

Issues resolved

- **Northern Territory was spelt incorrectly in Sentral Inbuilt list seen in Sentral Setup**

Health

Improvements

- **Report: A new date range filter has been added to the Student Medication Log**

  Health | Student | Medication | Administration Log

  The new date range filter should help with locating a student's medication administration record if the medication was administered outside of the term dates. For example, during school holidays.

Interviews

Issues resolved

- **Manage Unavailabilty pop-up was displaying incorrect times for multiple sessions**

  Interviews | Upcoming Parent Interviews | Upcoming Sessions tab

Integrations

Issues resolved

- **Firefly – The exported teachers Excel file was not displaying any data**

Markbook

Issues resolved

- **Progression Points were not able to be synced from Markbook to Academic Reports**

  Markbook syncing has been updated to support Progression Point scales.

Student Profiles

New features

- **Added the ability to view student continuum data within Profiles when switching schools**

  Profiles | Analysis | Continuums by Aspect

Issues resolved

- **Widgets: The Current Class widget located on the top right of a student's overview page didn't always show their current class if multi grid was in use**
- **User Interface: A user with access to Profiles Setup was not able to see the 'Profile Setup' option under the Setup dropdown menu in Profiles V1**

Timetables

Issues resolved

- **Timetable search for teachers and students was returning results for middle names which were not displayed**

Wellbeing

Issues resolved

- **School year filter was displaying inconsistent data in Wellbeing reports if 'Tally by school year' was used**
- **NSW DoE: DEL approval field was not sent to ERN when a suspension or formal caution spanned over two calendar years**
