

Service Release Notes

Version 25.3.0-p1

Release date 28/5/2025

Activities

Issues resolved

- The **Absent** field was hidden and couldn't be selected when marking an activity roll on mobile for students not present at the excursion

Dashboard

Issues resolved

- Some staff members were no longer receiving portal message notifications

Sentral Setup

Issues resolved

- Reactivated user accounts were missing from the Manage Users screen, preventing schools from setting access levels and restoring login access

25.3.0-p2

5/6/2025

Wellbeing

New feature

- Life Skills Go reports are now available directly from the Wellbeing Reports menu

Improvements

- Increased the view height for Life Skills Go embedded content
- All Life Skills Go embedded views now feature a link to open the view in a new tab/window

Activities

Issues resolved

- Parents received notifications for activities their children did not attend
- Schools were unable to remove activity permission due date
- Incorrect HTML tags appeared in the formatted text of the activity permission slip, affecting its clarity

25.3.0-p3

11/6/2025

- **Internal**

25.3.0-p4

12/6/2025

Fees and Billing

Issues resolved

- Dishonoured payment schedule instalment was automatically reprocessed when the associated payment method was updated via the parent portal

Academic Reports

Issues resolved

- In the footer, the page number and right column text would sometimes overlap on a printed report
- The Academic Reports publish reports screen was displaying the incorrect text for each tab
- Achievement Tally Component: The table border styling was not respected for 'Tallies' when creating the achievement tally table
- Summary of all subjects was showing for assisting teachers when they should have only been able to see the subjects they were assigned to

Activities

Issues resolved

- Inactive student names were missing from activity records

Attendance

Issues resolved

- The Official Record of Attendance report was generating a memory error when loading
- Automatic staff notifications were sent incorrectly for students who were not part of the filtered list when absences were created via task scheduler
- Apostrophes were not formatting correctly in future absence request comments
- The Truancy report was taking a long time to load when a large date range was selected
Truancy Report Unsorted: A cap of one month is now set when searching by date range to avoid the loading of too much data
- Deleting an incursion type did not inactivate its category details
- The Future Absence Notification link did not point to the Future Absence Requests screen

Attendance PxP

Issues resolved

- Student attendance heat map was missing the last week of each term
- The auto resolve function was not working when adding awards via quick incidents in PxP

Calendars

Issues resolved

- When indicating a Non-Teaching Day in Term Dates and Holidays for a single grade and creating an activity in the Activities module that is configured to sync to a calendar, the activity would not display on the calendar
Calendar events created for activities now show on school year specific non-teaching days if those days are for different years than defined in the activity.

Curriculum Reference

Improvements

- The 2026 Stage 4 Technology 7-8 and Stage 4 Technology 7-8 Life Skills subjects and outcomes have been added to the relevant NSW AC Digital Curriculum repositories

Fees and Billing

Improvements

- Dynamics Sync: Prepayments (unallocated payments) are updated correctly in Sentral after being refunded in Dynamics

Flexible Classes

Improvements

- **Updated the styling of the conflict screen that displays when submitting a Flexible Classes Roll**

Flexible Classes | Roll Marking | Conflicting Attendance

House Points

Issues resolved

- **Inactive students were not contributing to house point total for Activity points when the inactive student setting was on**

Markbook

Issues resolved

- **When selecting a date for a markbook task, the Year was not fully visible**
The date picker has been updated so that the full date is visible.
- **Duplicate rank calculation methods were appearing in the dropdown when adding a new calculation**

Plans

Issues resolved

- **The Modified Date in a plan was not respecting the local time zone and was, in some cases, showing an incorrect date when printed**

Portal Console

Issues resolved

- **Students logging into the portal could see multiple tenants in the dropdown, despite being active in only one**

Rosters

Issues resolved

- **When printing a timetable in rosters, the print page displayed but no further action could be performed**

Timetables

Issues resolved

- **Staff were not being assigned correctly for daily data when using staff mappings**

Wellbeing

Issues resolved

- **Incorrect data was displaying on incident reports when including empty results**
- **Student search was not working when pasting a blob of text into the search box**
