Service Release Notes

Version   25.3.1-p1

Release date   25/6/2025

Wellbeing

Issues resolved

- **Apostrophes were creating a hyperlink in the Incident Description field**

  Wellbeing | Incidents | Incident Register | [selected incident] | Record Details - All Students section | Incident Description field

25.3.1-p2

27/6/2025

Academic Reports

Issues resolved

- **Layout Design component preview was not working**

Timetables

Issues resolved

- **Timetables sync was not working when triggered via the user interface**

Version   25.3.2

Release date   30/6/2025

Academic Reports

Issues resolved

- **When duplicating the Whole Subject layout, or just the Course Result List component, the excluded result types were not copied across**
- **Attendance records were unable to be imported into a reporting period**

Activities

Issues resolved

- **Teachers were unable to mark some activity rolls**

API

Improvement

- **Added Indigenous Status to the core students API endpoint**

Attendance

Issues resolved

- **Notifications for automatic staff notifications included two links, one of which was invalid**

  The link in notifications now takes users to the correct student screen in Attendance.

  This issue affected some schools that moved from the ST environment.

Attendance PxP

Issues resolved

- **XLS timetable importer was using the wrong class if there was an Enrolments class with the same ID**

Enrolments

Issues resolved

- **Exports: An error occurred when generating an adhoc export if 'Show only for current enrolments' and any Staff field was ticked**

Enterprise Console

Issues resolved

- **School selection: Certain users were able to see their previous assigned school on the school selection screen, even though the user had been departed from the previous school**

  Whilst access to the previous school was still correctly denied, the user could still see the previous school for selection. The ability to see the school on the selection screen has been now resolved.

Interviews

Issues resolved

- **The email confirmation and portal view of the interview did not clearly indicate whether the session was online or face-to-face**

Markbook

Issues resolved

- **Progression points synced from Markbook were showing the incorrect result**

Messaging

Issues resolved

- **'Do Not Contact' family members displayed in search results of students and were added to email recipients**

Plans

Issues resolved

- **Plan flags were still displaying after the plan had been completed**

Portal Console

Issues resolved

- **Superusers were unable to make changes while impersonating a parent portal account**

Timetables

Issues resolved

- **Minimisation toggle (arrow) located at the bottom of the left menu was not working as intended**
