- **Enrolments: Added new endpoints for viewing PersonAbilityLinks**

Version 25.4.1-p7

Release date 6/8/2025

Analysis

Improvements

- **NAPLAN: Uploaded NSW Scout NAPLAN file format upload to align with NSW Department of Education's latest format change**
Original column header: Student name – SRN
Original text format: Surname, Firstname – SRN
New column headers: SRN, First name, Last name

Version 25.4.1-p8

Release date 7/8/2025

Calendars

Improvements

- **Events:** You can now associate a Year Level and Group when creating or editing a calendar event
- **Exports:** The ical and Excel export for a calendar will now contain Year Level and Group data if the calendar event has that data

Portal

Improvements

- **Added 'Last amendment request' link to the My Details section of the portal**

REST API

Improvements

- **Calendars: Updated calendar API endpoints to support Year Level and Group**
GET, PATCH, POST and DELETE operations for the following endpoints (where applicable) have been updated.
 - Calendar Event
 - Calendar Events
 - Calendar Recurring Event
 - Calendar Recurring Events

Version 25.4.1-p9

Release date 8/8/2025

Activities

Improvements

- **Costs screen: Added the ability to select the currency symbol and hide the Add Tax field**
 - To select the currency symbol to be displayed on the Costs screen for an activity, navigate to Setup | Activities Setup | Settings and update the Currency Symbol field.
 - To hide the Add Tax field on the Costs screen for an activity, navigate to Setup | Activities Setup | Settings and set the Show Tax field to No.
 - To change the label on the Add Tax field, navigate to Setup | Activities Setup | Settings and update the Tax Label field. For example, if you enter 'GST' into this field, the label will be 'Add Tax (GST)'.

Version 25.4.2

Release date 11/8/2025

Attendance

Issues resolved

- **Auto staff notifications were not triggering correctly when applying the consecutive absences rule**
- **Students were receiving duplicate absence entries from the auto absences task scheduler**
- **Letters: Certain previous households from Enrolments were incorrectly added to absence letters when they should have been ignored**
For Enrolments schools only.
- **Long roll names were not being truncated when printing travel routes, which resulted in a character limit exception**

Enrolments

Issues resolved

- **Exports:** Students with the enrolment status of 'Alumni' were not properly included in the NSSAB Census Export
- **Exports:** The SBD Export printed out '0002' as the language code instead of '1201' for certain students even though the students' main language was English

Fees and Billing

Improvements

- Added additional logging for online payments

Issues resolved

- Payment schedule linked to multiple invoices was cancelled when one of the invoices was paid with a credit note

Health

Improvements

- **Care Plans:** Health Care Plan and Emergency Care Plan type names now reference the plan name configured in Plans module

Messaging

Issues resolved

- **Messages:** Certain messages (email or SMS) sent with apostrophes in the content displayed incorrectly as random code or symbols

Plans

Issues resolved

- Last modified date did not change unless field values were adjusted

REST API

Issues resolved

- **Enrolments:** File downloading endpoints did not provide the correct file disposition headers
