

# Service Release Notes

**Version** 25.5.1-p1

**Release date** 16/9/2025

## Attendance

### Issues resolved

- **Absence responses were being linked to incorrect absences**

## Enrolments

### Improvements

- **Contacts: Contact language fields and additional fields are now visible and accessible via the Associated Contacts screen**

In Enrolments | Student Overview [selected student] | Associated Contacts | More details pane, you are now able to view and edit a contact's language fields and any configured additional fields. This includes contacts which aren't part of a household but linked to the student.

The two language fields are: 'Language Spoken at Home' and 'Language Other'.

The Additional Fields section includes all additional fields configured for household members via Setup Enrolments | Additional Fields.

### Issues resolved

- **Visa: Certain visa data such as visa expiry date isn't being sync'd via the Enrolments data sync**

## Fees and Billing

### Issues resolved

- **Purchase Bills for Sentral Pay transaction fees were sometimes synced to Xero unexpectedly**

Purchase Bills for Sentral Pay transaction fees were synced to Xero if the 'Should a Purchase Bill be created for any transaction fees school will be taking on?' and 'Automatically Push Payments to your Accounting Package (When created from Parent Portal)' settings were set to Yes, even if the 'Automatically Push Purchase Bills to your Accounting Package (when created via Parent Portal)' setting was set to No.

## Portal Console

### Issues resolved

- **Addresses: Family amendment address change requests did not properly support the Floor and Block fields**

**Version** 25.5.1-p2

**Release date** 17/9/2025

## Interviews

### Issues resolved

- **Parents were able to book interviews for the same child twice**

To help avoid duplicate bookings, the portal will now display a warning to the second parent if a booking has already been made by the first parent for the same student. This ensures smoother scheduling and clearer communication between families.

## Portal

### Issues resolved

- **Reports that were uploaded and visible in Enrolment prior to 2022 did not display on the parent portal.**

## Portal Console

### Improvements

- **Schools can now choose whether a newsfeed is sent from the School or the Organisation.**

This option appears above the Attachments section and defaults to School to maintain existing behaviour unless changed.

**Version** 25.5.1-p3

**Release date** 18/9/2025

## Activities

### Issues resolved

- **Activity: Attempting to remove a student from certain activities would result in an error**

## Messaging

### Issues resolved

- **Contacts: The Yes/No toggles for email and phone number of a contact were incorrectly disabled**

**Version** 25.5.1-p4

**Release date** 22/9/2025

## Portal

### Issues resolved

- **Reports that were uploaded and visible in Enrolments prior to 2022 did not display on the parent portal.**

## Portal Console

### Improvements

- **Family Amendments: Added pagination for the amendment pages to ensure page performance and ease of navigation**

In addition, added sorting capability for the Family Amendment Requests table.

**Version** 25.5.2

**Release date** 22/9/2025

## Analysis

### Issues resolved

- **Percentage in proficiencies for NAPLAN were adding a blank table column when viewing overall student and school results**

## Attendance

### Issues resolved

- **Staff were being alerted for partial absences instead of whole day when student absences changed from whole day to partial**

School Attendance | Setup | Automatic Staff Notifications

- **Exemptions/Absences did not export correctly when Printing by Roll class**

School Attendance | Travel | Daily Lists and Rolls | Export

## Fees and Billing

### Improvements

- **Dynamics Integration: Improved sync logic for retrieving refund and bulk allocation details from Dynamics**

This change applies only to independent schools that integrate Fees, Billing & Payments with Microsoft Dynamics Business Central.

### Issues resolved

- **Debtor Overview: Incorrect year level displayed for some alumni students in Linked Students list**  
This issue affected independent and ACT government schools only.
- **Some enrolments syncs were automatically restarted after intentionally being marked as 'Failed'**  
This issue affected independent and ACT government schools only.

### Integrations\Canvas

#### Issues resolved

- **Users were unable to access the Configure screen when the API details previously provided were incorrect**  
Admin | Integrations | Canvas | Configure
