Release date 3/8/23

- **Activities: Schools were unable to print activity roll PDFs if the electronic roll had not been created**

Version 23.5.11-MT

Release date 7/8/2023

Academic Reports

Issues resolved

- **Reports: Course results were not displaying in the correct order when printed**

Activities

Issues resolved

- **Standalone Invoices linked to an activity were not appearing in the Activities module**

Invoice Creation | Standalone Invoice

Invoices created through the Standalone Invoice creation process and linked to an activity via the 'Link to Activity' field were not appearing against the activity in the Activities module.

The dropdown list on the 'Link to Activity' field now includes a separate item for each cycle instance of each activity (e.g. 'Zoo Excursion - 2022 - Annual' and 'Zoo Excursion - 2023 - Annual') so that invoices can be linked to a specific cycle instance of an activity, and appear against that cycle instance of the activity in the Activities module.

Analysis

Improvement

- **NAPLAN: Introduced NAPLAN file upload support for the ACT NAPLAN data file**
ACT Only

Issues resolved

- **A format change in NAPLAN Vic files resulted in an error when users tried to import the files into Sentral**
(Vic only) Analysis | Setup Analysis | Imported Files

Attendance

Issues resolved

- **Attempting to print a class roll from the Roll Submissions screen would fail**

Attendance PxP

Issues resolved

- **The Roll Marking Report was only generating for default campuses**

Core\Authentication

Issues resolved

- **Medication: Certain users were unable to remove a medication administration record for a student despite having the right access and staff linking**

Curriculum Reference

Issues resolved

- **Curriculum Reference was displaying incorrect outcome text in NSW K-6 AC Repository – Mathematics - Stage 2**

Enrolments

Issues resolved

- **Dashboard: The Enrolment Rollclass Statistics table was displaying incorrect information for composite classes**

Fees and Billing

Issues resolved

- **The Aged Debtor Summary did not include inactive debtors with outstanding balances**
Exports | Aged Debtor Summary

Messaging

Issues resolved

- **Absence notifications were not being sent out due to issues with the configuration of auto absence rules**
Automatic Absence Notification Rules will now highlight if the year levels assigned to the rule are no longer valid.

Timetables

Issues R\resolved

- **Timetables: Multi Campus students were assigned to incorrect default campuses**
