

# Service Release Notes

**Version** 24.5.1-p1  
**Release date** 14/8/2024

## Issue Tracking

### Issues resolved

- **Reports: For certain task types, the Task Details PDF Report failed to print any tasks in relation to the task type**

## Resource Booking

### Issues resolved

- **An error occurred when attempting to access Resource Booking**

## Timetables

### Issues resolved

- **Performance issues were impacting roll marking due to an inefficient cross-campus query**

The speed of retrieving cross campus information on timetables has been improved.

## Wellbeing

### Issues resolved

- **NSW DoE: Some suspensions were not able to be saved due to the student going over the maximum suspension days limit for a year and no DEL approval checkbox appearing**

When updating a suspension where the maximum suspension days for a student was exceeded, a validation message was appearing, however, the DEL approval checkbox was not visible to select, and the suspension could not be saved.

**Version** 24.5.1-p2  
**Release date** 15/8/2024

## Academic Reports

### Issues resolved

- **When printing reports, multiple components were printing without data**

## Attendance

### Issues resolved

- **Future absence requests were not saving in Attendance after being approved**

## Resource Booking

### Issues resolved

- **An error occurred when attempting to find timetables by room**

**Version** 24.5.1-p3

**Release date** 15/8/2024

## Core Platform

### Issues resolved

- **Added the ability to clear cache for ecoPortal integration**

## Attendance

### Issues resolved

- **Future absence requests that were approved during the period August 13th to August 14th 2024 but failed to create records in Attendance have been reset to pending**  
Approving these requests will now create the missing absence record.

**Version** 24.5.1-p4

**Release date** 16/8/2024

## Fees and Billing

### Issues resolved

- **Debtors Register: 'Email statements' option was sending incorrect statements**

**Version** 24.5.2

**Release date** 19/8/2024

## Academic Reports

### Issues resolved

- **Student Grade Distribution export was displaying student preferred name instead of student first name**  
The student grade distribution export now displays both student first name and preferred name
- **Reports publishing was accidentally triggered a second time when the user clicked the Generate button twice**  
The Generate button will now become inactive after it is clicked for the first time.

## Activities

### Issues resolved

- **Activity reminder emails were going to only one contact in situations where more than one contact was set up for a student**  
Activities | Activity Reminders | Excursions

## Analysis

### Issues resolved

- **Overall Summary data was not displaying for some years but was intermittently displaying for other years**
- **When attempting to import the NAPLAN file exported from Scout, an 'Unknown file provided' error displayed**  
Support for the 2024 Scout NAPLAN export format has been added.

## Daily Org

### Issues resolved

- **User interface: Various grid views had extra spacing or reduced spacing due to older browser versions**  
Additional display logic has been added for older browser versions.

## Enrolments

### Issues resolved

- **Additional Fields: An error occurred for certain students when selecting to view a student's 'Permissions' screen**  
The error occurred in situations where an internal historic additional field wasn't ignored properly  
Enrolments | [student] | Student Overview | Permissions
- **Attempting to use the Classes Quick Edit would result in an error**  
Enrolments | Current Enrolments | Quick Edit | Classes Core\Data Sync

## Meetings

### Issues resolved

- **Attempting to access the Meetings screen for certain students would result in an error**  
This issue occurred when accessing meetings via the Meetings module or Profiles module.

## Sentral Pay

### Issues resolved

- **Payment Schedules: 'Schedules that will overpay linked invoices' filter included dishonoured instalments**  
Sentral Pay | Payment Schedules  
This resulted in some payment schedules being incorrectly identified by this filter.  
This issue affected independent and ACT schools only.

## Sentral Setup

### Issues resolved

- **Photos: Pressing the 'Find Staff Without Photos' button incorrectly displayed staff with a photo assigned**
- **SSO readiness checklist was automatically triggering users to update their username even for non-SAML accounts**  
This issue affected NSW DoE schools only.

## Timetables

### Issues resolved

- **Not all information was printed on the Student Locator printout**  
When printing a Student Locator that contains many columns, excess columns will now appear below the previous columns instead of to the side of the page.
- **Student timetables were not printing correctly when certain periods were filtered out**  
When printing only selected periods on the timetable report, those periods will always show regardless of which order they appear on a particular day.

## Wellbeing

### Issues resolved

- **Incidents that had a non-suspension follow-up action with a label that included the word 'Suspension' were not able to be saved**
