Version	23.9.14-ST
Release date	28/3/2024

Activities

Issues resolved

- **Attempting to access the Activities module would result in a Sentral Exception error**

Version	23.9.15-ST
Release date	4/4/2024

Curriculum Reference

Improvements

NSW AC Digital Curriculum has been updated

The following subjects have been updated for 2024: K-6 English, Mathematics and Languages, 7-10 Mathematics and Languages, Stage 5 Computing Technology, Stages 4-6 Life Skills and 11-12 Geography, Enterprise Computing and Software Engineering

Fees and Billing

Improvements

- **Payments: Invoice/Fee number added to payment Reference for online payments**

Issues resolved

- **Standalone Invoice: Could not invoice an alumni student from a prior academic period**

  This issue affected independent and ACT schools only.

  To invoice an alumni student, use the Search Students field in the Selected Debtors/Students section of the Standalone Invoice screen (Invoice Creation | Standalone Invoice) to locate and select the student. This search will now identify any student with an enrolment record in the specified Academic Period, regardless of the student's enrolment status in that academic period.

- **Billing Run: Displayed an error if a selected debtor had a combination of active and departed students**

  An error appeared during the Billing Run (Billing | Billing) if the Search Debtors button was selected on the Select Who To Bill screen, and one or more of the selected debtors was linked to a combination of active and departed students.

  The error appeared when Next was selected on the Select Fees to Bill screen.

  This issue affected independent schools only.

- **Payment Request wasn't linked to student when an invoice for a future student was published to the Parent Portal**

- **Billing Run: Error was displayed during Billing Run after searching for students by class**

  The error appeared when Next was selected on the Fee Selection page of the Billing Run after searching for students by Class.

  The error was 'TypeError – implode(): Argument #1 ($pieces) must be of type array, string given'

Version	23.9.16-ST
Release date	10/4/2024

Curriculum Reference

Issues resolved

- **Some of the Mathematics strand names in NSW AC Digital Curriculum K-6 were incorrect**
